ePartConnection Setup Procedures For The Datatron Computer System

Setting The System Management Questions Relating To ePartConnection

- From the *OE Menu*, enter **16** (*System Management*).

- Enter **2** (*Define System Parameters*).

- With the cursor positioned at the AT ANY CHANGE prompt, enter **S25** to go to screen 25.

- With the cursor positioned at the AT ANY CHANGE prompt, enter **177** for question #177.

- With the cursor positioned at the AT IP port Number prompt, enter **33796**.

- With the cursor positioned at the AT IP Address prompt, enter your IP address that the ePart Catalog will be accessing.

- Choose whether you want Hold Tickets or Picking Tickets to print when a customer sends an order from the ePart Catalog.

- Choose whether you want to combine multiple orders on a single invoice.

At ANY CHANGE you can left arrow back to the *OE Menu*.

The hold or picking tickets will print on the same printer as all other hold or picking tickets that are not created from ePart.

Setting A Password Within The Datatron System

- From the *AR Menu*, enter **1** (*Customer Maintenance Menu*).

- From the *Customer Maintenance Menu*, enter **1** (*Customer Maintenance*).

- Enter **2** (*Change/Inquire Customer(s)*).

- Enter the customer number of the customer you are setting up a password for or do a lookup on the customer.

- Press the **<Enter>** key to go to the 2nd page.

- Enter **10** (*DLR TERMINAL PASSWD*).

- Enter in the password (a minimum of 3 digits and/or letters).

At ANY CHANGE you can left arrow out to the monitor dot.
